

Spreader Bars for Forklift

Forklift Spreader Bars - Proudly operating ever since nineteen seventy four, ELME Spreader AB is the largest independent spreader maker all over the globe. They have been a dedicated maker of spreaders for different applications like the swop bodies, trailers and handling of containers.

Engineering is done in-house by utilizing all the latest CAD systems and FEM tools. The ELME company now has more than one hundred twenty five staff members. Their spreaders are supplied to reach gantry, quayside, ship-to-shore cranes, stackers, straddle carriers and lift trucks all-around the globe.

The ELME product collection offers spreaders for various trailer and container handling operations. A few of their inventory consist of: Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers in addition to a wide range of additional parts.

ELME production and manufacturing is done in a highly automated purpose built factory. In 2008, they created over one thousand one hundred fifty spreaders by means of making use of high quality elements to be able to guarantee dependability and top standards while offering reasonable prices. Major features of ELME comprise design simplicity, market feedback and innovative modular spreader concept.
