

Clark Forklift Part

Clark Forklift Parts - Presently, there are no less than 350,000 Clark lift trucks performing worldwide, and more than 250,000 in service in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive companies in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand powered trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 distinctive designs of forklifts, with components covering more than 120,000 particular components for all of its automated equipment. Your regional Clark Dealer is your complete source for availability of all your parts needs offered by Clark Totalift.

Clark's phenomenal Parts Distribution Facilities are conveniently located in Louisville, Kentucky, which serves both their consumers and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing manufacturers. Driven to offer the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to improving efficiency and benefiting performance.

Clark Totalift has a really amazing worldwide support network. With over 550 locations worldwide, dealer representation in over 80 countries and 230 locations in North America, their high level of dedication to their customers predominates the material handling industry.

Clark proudly remains an innovative leader of the industrial equipment industry, revolutionizing safety features such as the operator restraint system. This exceptional dedication to safety is currently a standard feature on every forklift.

Clark's relentless goal to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift manufacturer across the world to be certified with the globally accepted quality standard ISO 9001 for all of their manufacturing facilities. Furthermore, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any environmental restrictions, thus placing them in a prevailing market position.

Clark has selected the structure of "Lean Production" at all of its assembly plants because this system is extremely economical and allows for minimal use of resources. Established to guarantee maximum efficiency, this system is intended to find and acknowledge the most efficient methods for production plant stewardship. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards enhancing product effectiveness while minimizing costs. The contemporary value engineering agenda combines modern product improvement and offers superior customer support and service within the industry.
