

## Meritor Parts

Meritor Parts - Meritor is a leading global dealer which is proudly established on a one hundred year tradition of service and quality. They concentrate on a broad range of modules, integrated systems and components to original machinery makers and the aftermarket for the industrial and transportation trades.

Meritor values the wishes of their customers to guarantee their success while priding itself in the company's unique energy and believes this output of energy to be their aggressive advantage in their international operations. Meritor starts with a philosophy which values diversity of individuals and their broad thought processes. Operating in 19 countries and hiring over eleven thousand two hundred people, Meritor promotes innovation and collaboration among a team of knowledgeable professionals.

By just employing future focused people, Meritor strongly thinks these top-caliber individuals would be able to rapidly adapt to changing surroundings and demonstrate the commitment and performance needed so as to achieve results in the competitive materials handling business. The company empowers their teams to make sound business decisions in order to enhance the overall success of the business. In return, Meritor offers their staff various possibilities for professional and personal development.

Their Advanced Engineering team is at the forefront of parts and system engineering which consist of axles, drivelines, suspension and braking systems used for heavy duty and medium trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is developing. They started a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the entire Asia Pacific region. This team is even responsible for supporting the requirements of their worldwide engineering workers.

Meritor's customer focused and dynamic Quality team is committed to ensuring optimum processing at their aftermarket distribution facilities and production plants that are located all around the world in 19 countries and in 5 different continents.

The supplier development network is specifically situated in order to support new business growth. Regional teams are supported by international centralized specialties, initiatives and quality systems in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making in every part of the company. The DFSS or Design for Six Sigma ensures product reliability in each region. The team is also included transactional Green Belts who apply Six Sigma tools to business methods and apply lean techniques.
