

## **Forklift Electrical Part**

Forklift Electrical Parts - Forklifts together with various forklifts can have specific labels utilized in certain hazardous locations. The mark indicates that this particular model of lift truck meets the minimum standards of ANSI/UL 553 meant for electric forklifts or ANSI/UL 558 for internal combustion engine forklifts.

The use for labels intended for lift forklifts could be found in National Fire Protection Association NFPA 505 - Powered Industrial trucks including: Areas or Use, Maintenance and Operation, and Type Designations. Ask your local insurance provider and Fire Marshall for further information regarding the approved uses of industrial powered forklifts in your application.

If the certain forklift meets the outlined criteria, labels can be placed. A labeled forklift will show the type of designation placed on the nameplate and will have a properly corresponding label attached.
